

# *Cassinia longifolia*

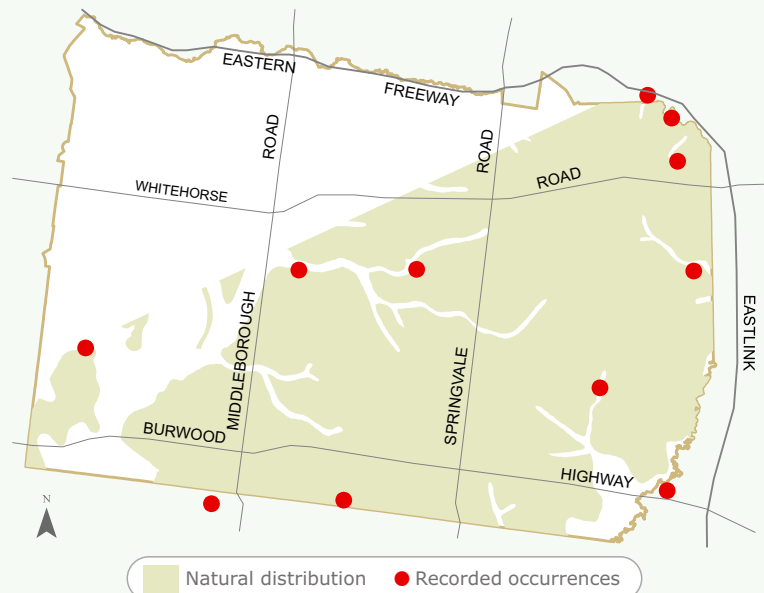

## Shiny Cassinia

<b>Height:</b>	2m - 4m
<b>Width:</b>	2m - 3m
<b>Habit:</b>	A fast-growing aromatic medium to large shrub.
<b>Foliage:</b>	Long narrow, sticky, shiny green leaves to 8cm long.
<b>Flowers:</b>	Small white/cream flowers in dense dome-like clusters to 15cm across from November to March.
<b>Requirements:</b>	Adaptable to most conditions, prefers moist, well drained soils. Shade or partial sun.
<b>Cultivation &amp; uses:</b>	A hardy plant useful as a quick screen, windbreak or for colonising disturbed areas. Prune to encourage a bushy habit and promote new flowering.

### Local Distribution:

Map is indicative to the natural distribution of the species based on the best available knowledge.
